PROFESSIONAL SUMMARY

Full-stack developer with 2+ years of production experience across 3 companies, building everything from enterprise vehicle surveillance systems and AI voice agents to e-commerce platforms. Currently at HS Technologies contributing to distributed NestJS backends and Angular frontends while completing a CS degree at UET Lahore. Core stack: Angular, React, Next.js, Node.js, NestJS, PostgreSQL, TypeScript.

SKILLS

Expert: Angular, TypeScript, React, Next.js, Node.js, NestJS, PostgreSQL, Tailwind CSS

Strong: Socket.io, TypeORM, Prisma ORM, REST APIs, Docker, Git, Express.js

AI / ML: OpenAI Realtime API, GPT-4 API, Qdrant Vector DB, WebRTC, BullMQ, Redis

Also used: FFmpeg, MediaMTX, React Native, Kotlin, Electron, Deno, FastAPI, C#, PHP, MySQL, MongoDB, Firebase, Supabase, Stripe, Twilio, SignalR, RxJS, Zustand

PROFESSIONAL EXPERIENCE

HS Technologies — Associate JavaScript Developer | Lahore, Pakistan | Mar 2025 – Present

- Built live streaming module for VXS surveillance platform: FFmpeg child process management, MediaMTX media server relay, and WebRTC (WHEP) delivery with automatic reconnection using exponential backoff (3s to 48s, max 5 attempts)
- Contributed to ANPR camera event pipeline running 5 parallel validation checks per vehicle entry and controlling physical barrier gates via Python SDK
- Contributed to Buy4Me, a cross-border e-commerce platform on a 4-app Nx monorepo with NestJS 11, Angular 21, Qdrant semantic search, and Stripe multi-currency wallet
- Developed Electron desktop app for hotel identity management with passport reading and facial recognition
- Managed VPS deployment with PM2 cluster mode and automated CI/CD scripts

Texel Technologies — Associate Angular Developer | Lahore, Pakistan | Sep 2024 – Apr 2025

- Built real-time chat module with SignalR handling concurrent multi-user sessions
- Created Medical CRM dashboard with Chart.js for clinical data visualization
- Optimized SQL queries for data-heavy reporting views

Wordsense 2.0 — Web Developer Intern | Lahore, Pakistan | Jun 2024 – Sep 2024

- Built features using C#/.NET, Angular, TypeScript, and SQL
- Developed responsive UI components and RESTful API integrations

PROJECTS

VXS — Vehicle Surveillance & Access Control | NestJS, TypeScript, PostgreSQL, TypeORM, Socket.IO, FFmpeg, MediaMTX, WebRTC [Company Project]

- Contributed to a 33-module NestJS backend powering enterprise vehicle monitoring across a distributed VXS + DPU multi-server architecture
- Designed and built the live streaming pipeline: FFmpeg child processes → MediaMTX relay → WebRTC (WHEP) browser delivery, with stuck stream detection (15s threshold) and viewer-based auto-cleanup
- Real-time WebSocket gateway distributing ANPR events, alarms, and user status across role-scoped rooms

PM Suite — Project Management Platform | *Angular, Deno, PostgreSQL* [Company Project]

- Contributed to a full-stack PM platform with Kanban boards, a Notion-style document editor (20+ block types), integrated real-time messaging, KPI dashboards, and time tracking
- PWA with offline support, JWT auth, RBAC, and Docker deployment

Buy4Me — Cross-Border E-Commerce | *Angular 21, NestJS 11, MySQL, Prisma, Nx Monorepo, Stripe, Qdrant, Docker* [Company Project]

- Contributed to a production platform for the Azerbaijan market: 4-app Nx monorepo, Qdrant-powered semantic product search, and Stripe multi-currency wallet system
- VPS deployment with PM2 cluster mode and automated CI/CD pipelines

CallDraft — AI Voice Agent | *Next.js, TypeScript, OpenAI Realtime API, WebRTC* [Personal Project]

- Built a browser-based AI voice agent with live speech-to-speech conversations at sub-800ms latency
- OpenAI Realtime API with ephemeral token WebRTC auth, live transcript, call timer, and latency indicator

Real-Time Billing Engine | *Node.js, Express, TypeORM, PostgreSQL, Socket.IO* [Company Project]

- Contributed to a server-authoritative medical billing system with pessimistic locking for concurrent session safety
- Doctor-client queue matching and heartbeat-based session monitoring via Socket.IO

EDUCATION

University of Engineering and Technology, Lahore | 2023 – 2027 | CGPA: 3.33 / 4.00

BS Computer Science - Final Year

Punjab Group of Colleges, Lahore | 2021 – 2023 | Marks: 1002 / 1100

Intermediate in Computer Science (ICS)
